

Amendment to the Claims:

Claims 1-6 (cancelled)

Claim 7 (new) An electrical outlet box assembly to be mounted in association with an installation structure, said assembly comprising:

an outlet box;

an outlet assembly;

an insert having a size and configuration to be positioned outside the outlet assembly and having a plurality of sidewalls insertable within the outlet box and an extremity extending outwardly from the outlet box and around one or more outlets of the outlet assembly;

a cover plate positionable on an outer surface of the installation structure; and

one or more gaskets located between the cover and the insert to reduce the ingress of moisture or other contaminants into the outlet box assembly.

Claim 8 (new) The electrical outlet box assembly of claim 7 wherein the outlet box is mounted to the installation structure by one or more mounting flanges.

Claim 9 (new) The electrical outlet box assembly of claim 8 wherein said mounting flanges are an integral part of said insert.

Claim 10 (new) The electrical outlet box assembly of claim 8 wherein the mounting flanges and the extremity of the insert are located generally in the same plane.

Claim 11 (new) The electrical outlet box assembly of claim 7 wherein the insert extremity and the gasket cooperate to reduce the ingress of moisture or other contaminants into the outlet box assembly.

Claim 12 (new) The electrical outlet box assembly of claim 7 wherein one or more of the insert sidewalls are disposed between a terminal on the outlet assembly and a sidewall of the outlet box.
